The Arizona Antique Radio Club was organized in 1983 for the preservation of the history and artifacts of radio and television, and for the advancement of knowledge and appreciation of radio technology and communication. The Club is a non-profit corporation organized primarily for the mutual assistance of radio devotees and collectors in Arizona. Membership, however, is open to any persons who have an interest in radio and television history, preservation, restoration, and collecting.

Meetings are held from October through May and consist of touring collections, presentations of technical, historical or restoration information, thematic displays of radios and the autobiographical experiences of the members. Our antique radio Swap Meets are scheduled for Spring and Fall meetings. Members of the Board of Directors are elected at the annual business meeting in May. Most meetings are held on Saturdays in the Phoenix and Tucson areas, and when possible, elsewhere within Arizona.

Membership dues are $18 (individual) or $20 (family) per calendar year and provide access to all club benefits including the quarterly issues of the *Radio Club News*. Send dues or membership inquiries to: **Arizona Antique Radio Club, 10513 E. Clinton, Scottsdale, AZ, 85259, phone (602) 860-8951.**

The Arizona Antique Radio Club News is the quarterly publication of the Arizona Antique Radio Club, Inc. It is mailed First Class to current members.

Contributions: submission of articles, news items, fiction, photographs and other materials relating to radio history and collecting are greatly appreciated, particularly if they have an Arizona connection. All members are encouraged to broaden their interest in the hobby by sharing their experiences, opinions, knowledge and observations with the club through its publication. Send materials for publication to **Arizona Antique Radio Club, 2025 E. LaJolla Dr., Tempe, Arizona, 85282-5910. Phone is 480-730-6058.** Email: **lettow@yahoo.com.**

INTRODUCTION

In the spring of 1983 a few antique radio enthusiasts got together and formed the Arizona Antique Radio Club. Apparently a journal was envisaged from the start, because Volume I, Number 1 of what was then simply called *Radio News* was published in May of that year. Eighteen years later we can take a quick look back and be proud of the many years of learning, service and pleasure we have taken from club activities and our journal.

The idea for a comprehensive index of the publication has been knocking around for many years; new members are curious about the articles they may have missed and old members need something to help them find articles they remember seeing years ago.

This summer, undaunted by the size of the task, Clyde and Lois Watson decided to dig in and finally write the index. As charter members and former editor and treasurer, we can thank Clyde and Lois for the huge part they have played in the development of the club; now we can again thank them for their work on this index. Nobody would have been better suited to this job.

The first nine issues of the journal, (May 1983 to April 1986), were produced by Secretary/Treasurer Lee Sharpe and her husband Editor/ Historian Ed Sharpe. The size of the book was the same as we have now and it was called *Radio News*.

A big change was made in July of 1986 (Vol.3, No.3). David Lowenstein became Editor and the format of the *Radio News* was changed to typed, 8.5x11 inch sheets, printed on one side. This new format was easier to produce, and there were 8 journals between July of 1986 and May of 1987.

Clyde took over as Editor for the Fall 1987 journal, and he returned it to the 5.5x 8 inch format. The journal was renamed the *Arizona Antique Radio Club News* and the design of the cover was completely overhauled. The publication schedule was made more regular and the issues were now dated with the seasons instead of individual months. The were six issues in 1988, after that it went to four issues per year. Clyde produced a total of 26 issues from the Fall of 1987 to Winter of 1993. I took over the publication as Editor in 1994. In 1995 the cover was again redone and the club logo was introduced.

For a small radio club, a quick look through this index will show we've done astonishingly well. We've had contributions from many talented and interesting people, including some who are no longer with us. Our contributors have shown us year after year that this club and this hobby can be far more than the buying and selling of old radios. For that at least, we owe them our gratitude.

Read what happened
YES!
Indeed, I'll write! That's what L.M. said and now he has found success in antique radio collecting.
to these two men
when I said:
NO!
I'm not interested. That's what this fellow said. Today he would be ashamed if I gave you his real name.
